

Personal Track Safety - Practical: One Day Sentinel Certification

Personal Track Safety Practical: One Day Sentinel Certification

The Personal Track Safety One Day Sentinel Certification practical aspect is the second part of the whole Personal Track Safety certification. The E-Learning module must be completed beforehand, with the learner being able to complete this as part of the Personal Track Safety - Initial - E-Learning Sentinel Certification, or can be completed on their own beforehand. This course is suitable for those who are over 16 years of age, sponsored by a link-up approved railway company, have a medical, drug and alcohol screening, and a good grasp of the English language to be able to make an emergency call.

Course Content

By the end of the course, the candidate will understand the rules and regulations that are in force for personal safety, that will need to be followed whilst working on and near the line on the Railway Infrastructure.

Re-certification

The Personal Track Safety re-certification takes in to consideration the E-Learning programme and the practical day course. Please contact us directly at Developing U if you are interested in the re-certification so we can discuss the individual's options.

Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing individual with the Personal Track Safety certificate.
