

Portable and Transportable Plant: One Day In-House

Portable and Transportable Plant: One Day In-House

The Portable and Transportable Plant One Day In-House course is suitable for any individual with Personal Track Safety certification, who are wishing to progress and use small tools near and on the line. This can range from using a rail saw to generator work, with each item requiring individual training to ensure the individual is confident on each tool, and can use it safely. This course is taught in a classroom setting.

Course Content

By the end of the course, the learner will be able to progress into operating various small tools and equipment. This can include, but is not limited to:

- Abrasive Wheels training
- Cembre Rail Drill
- Disc Cutter
- Generator
- Impact Wrench
- Kango/Breaker
- Rail Saw

There is the option to tailor this list to an individual learner's needs. If there are particular tools that the individual will need training on, please get in contact with us to see what we can arrange.
